Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Keep the Internet accessible to all.

Sincerely,
Robert Vazquez

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

DO NOT TURN THE INTERNET INTO ANOTHER UN-DEMOCRATIC "Citizens United" THAT BENEFITS ONLY THE WEALTHY !!

The Internet is our 21st century public square.
We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is VITAL TO OUR DEMOCRACY.

OUR TAX DOLLARS ORIGINALLY SUPPORTED THE CREATION OF THE INTERNET FOR GOVERNMENT USE.....DO NOT GIVE IT ALL TO THE "BIG MONEY."

Letting well-financed interests build fast lanes for the few will harm all of us.
Corporate voices will always be able to afford special access while independent and non-profit voices suffer.

The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by RECLASSIFYING BROADBAND AS A UTILITY !

Sincerely,
Elizabeth Catenacci

Dear Commissioner Wheeler,

From what we read about comments from the FCC, they really don't understand what a danger there is to our public information by approving the request to allow a two tier pricing for internet connection. We can't allow the internet to be sold to the highest bidder. Please protect the internet by making broadband a public utility.

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Mrs. Susan Wilson

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Ms. Michelle Palladine

Dear Commissioner Wheeler,

Voting for Net Neutrality is the right thing to do. It is in the best interests of all the people in the United States and may ultimately extend to all the people on this planet.

History will be made by what you do. Please, please do that which offers the greatest good for the greatest number. Otherwise, like those who decided to wage war in Iraq, you will be judged harshly by future historians. Your decision on net neutrality is THAT important.

Dear Commissioner Wheeler,

I wholeheartedly oppose any government action that would create or facilitate a fast-lane in the internet for the benefit of special users. In its present form, the internet represents the noble basis of our society in which we say, "All are created equal".

I am embarrassed to think that our elected representatives would even contemplate legislating changes in the everyman internet to favor certain selected users.

Dear Commissioner Wheeler,

The Internet is our 21st century public square. It needs to be open to all, on equal terms. Democracy will suffer if well-financed interests are able to build "fast lanes" that give their content privileged status. This is no more acceptable than a system in which only the wealthy can use the highways, speak on the street corner, drink the water, or breathe clean air. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a common carrier.

Dear Commissioner Wheeler,

I am for net neutrality, but want to be careful. I don't want Netflix to be able to tie up most of our national bandwidth without paying its fair share, but also don't trust ISPs particularly large corporations that operate most of the first layer ISPs such as Verizon and Comcast. Unfortunately there is not much competition in our internet service providers, don't destroy what there is. If they have a monopoly, or duopoly or tri, then we must regulate them so they won't favor their own interests.

Sincerely,
Dr. Edward Donahue

Cable companies already control access through their tiered payment structures. Because they have a state sponsored monopoly they should not be able to segregate access in any way. The access speed I get from my cable service should be the same as everyone else's for the same price. Since cable companies cannot operate without government grants of right of way and monopoly access, the cable fees should be regulated like utilities, or cable should be opened to competition.

Sincerely,
Mr. David Schnell

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer.

The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

RECLASSIFY BROADBAND AS A UTILITY.

Sincerely,
Ms. Andrea Saunders

Subject: Democratic equality MUST be protected on the Internet

Dear Commissioner Wheeler,

Protecting democratic First Amendment equality is essential to a functioning equally informed society that wants a full range and access to information. As has been said before, the Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is ESSENTIAL to our democracy.

Monied corporate interests building fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must NOT ALLOW any plan that would allow corporate gatekeepers to unequally slow or handicap web traffic and recommit to the idea that an Open Internet should be reclassified as a utility - same as land line phones of yesteryear.

Sincerely,
Mr. Thomas Madison

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

As an ill widowed senior citizen who has lost most of her friends and family, I stay in touch with my remaining family and friends online. I also do research and participate in my causes online. I cannot afford joy rides, so I even travel and am entertained by music, movies, books, etc. online. And I take and share photos online. In short, I practically live online - and cannot afford to pay more than I already do just to maintain the mediocre speed I now have. Net neutrality is a must to keep costs contained for many people. Only large companies can afford to pay more!

In addition, the Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Ms. Barbara Pepper

Dear Commissioner Wheeler,

The internet is Democracy in action. The internet is the last best place for Democratic principles to be voiced and acted out. Uncensored news and information is necessary for a Democratic system to survive. If you believe in Democracy the internet must be protected as a free and honest international utility that is not policed or governed by any entity.

The internet is the road to our salvation and should not be a toll road or have special lanes for special wealthy people.

The FCC must PROTECT OUR INTERNET FREEDOM AND reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Thank you

Michael

Dear Commissioner Wheeler,

For some years I was a successful commercial assignment photographer but the 'accessibility to all' enabled by digital photographic technology has effectively pushed me into something like retirement. Going forward only effective and affordable prospect to present myself to potential markets is through a website. If my site is encumbered with pay to play measures I will be very disadvantaged. Please keep the internet free and open to all without any limitations.

Sincerely,
Mr. Larry Ketchum

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Ms. Kathy Morey

The basis of a strong democracy is the ability for citizens to communicate freely. The "Fast lane" proposal before you now will severely restrict this vital communication link. Big providers, such as Comcast, could retaliate against web sites that criticize them.

Please vote to keep the internet free of interference.

Sincerely,
Mr. Richard Dennison

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Mr. Donald Foster

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Mr. Keefe Nghe

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The only entities that want this are CORPORATIONS that will make billions!

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. If they want this control let them build their own internet separate from the one that people built for all to use. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Ms. Lynn Manzione

The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

This move to show favor in access to information will clearly be unconstitutional. Everyone in this country is supposed to be treated equally under the law.

Individuals, small businesses, the economy, democracy will suffer for the benefit of a few who already have taken too much without giving back.

The Open Internet can only be saved through the reclassification of broadband as a utility.

(I am long-term unemployed, with a MA and partial disability. Instead of looking for work, I am writing this. Why, because government is not doing its job.)

Sincerely,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Marilyn Lindahl

Privatizing the internet in any way to tipping its balance to "special" parties (corporate entities) violates the principles and the spirit of democracy !!! It is yet one more step of the powerful to subvert democracy to serve its own purposes !!! It is intellectually dishonest and morally unconscionable to subvert the internet and democracy in this matter !!!!!

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Lisa Marguerite Mora

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Dr. Jacques Zakin P.E.

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer. The FCC must reject any plan that would allow corporate gatekeepers to control web traffic and recommit to the Open Internet by reclassifying broadband as a utility.

Sincerely,
Mr. Chris Papouchis

Subject: Protect Internet freedom!

Dear Commissioner Wheeler,

One of the keys to an informed citizenry is open access to all channels of information.

Currently the amount of open access to the internet is one of the most useful tools

we have to make sure the public is informed. Do not let internet providers prohibit this openness in the interests of greed. What follows is the more generic message.

The Internet is our 21st century public square. We use it to inform ourselves about candidates, debate the issues, and organize with other advocates. The Internet's role as a vibrant platform for public discourse is vital to our democracy.

Letting well-financed interests build fast lanes for the few will harm all of us. Corporate voices will always be able to afford special access while independent and non-profit voices suffer.
